

9/11 WTC

FIRST RESPONDERS FOUNDATION HEALTHCARE TODAY

***The Rights of First Responders,
*Are those Rights for you to support & protect
Our Homeland Responders on American Soil?**

By Joe Garofalo, Founder/President

FEATURE ARTICLE: FIRST RESPONDER BENEFITS

CAN ANYONE TELL ME WHERE OUR VALUED AMERICAN DREAM BENEFITS ARE?

I AM NOT ASKING ABOUT SOCIAL SECURITY OR MEDICARE BENEFITS OR FOR THAT MATTER MEDICAID BENEFITS, WHICH HAVE BEEN IN PLACE FOR CENTURIES. IT IS BY "WE THE PEOPLE" THE AMERICAN CITIZEN WHO HAVE ALREADY PAID INTO ANY OF THESE GOVERNING LAWS SINCE THE RAILROAD & RETIREMENT ACT, DISABILITY ACT AND ITS HEALTH CARE ACTS THAT HAVE BEEN IMPLEMENTED ACCORDINGLY AS NOTED ABOVE, THROUGH THIS COUNTRY'S NATIONAL MANDATE BY THE WORKFORCE.

What was the justification for stimulating Palestine construction donating over 150 million dollars for housing as noted by Hillary Clinton. This country also has a big problem with housing too, but I guess they decided it wouldn't stimulate that expense for Americans. Well, then why not stimulate the emergency reserve funds for First Responders first without putting all of us through hoops with false promises by political in house warfare games, causing an embarrassment to the American People. Yes, I said it and it is not a big secret. Just like the secret of who should be responsible for the WTC carnage, the growing fatality's of the still sick and suffering first responders, who come second to the illegal's and foreign affairs in this country. Isn't it against the American moral, where illegal's don't have to pay their health and medical costs. We the First Responders are hurt by this receiving court ordered judgements issued against us for payment and noted on our credit report. I have been rushed to John Doe Hospital via EMS Ambulance gasping for air with an

~ Lets get one thing straight ~ not to be misconstrued as being a player hater which is far from my calling. I am an advocate of Human Rights, All First Responder Rights of any Homeland Disaster Since 9/11 on American Soil, fair Due Process, the Constitution for these United States to be abided by rejecting and protecting against all that are unaligned as noted by our forefathers without change, the Survival of the American Dream, a concerted effort to maintain the Spirit of America and the Loyal Order of World Peace with the Preservation of Freedom. Putting this all in a nut shell, where is my Life, Liberty & the Pursuit of Happiness if I along with many other organizations have to fight hard to wake up the everyday American citizen. Not only do all First

Responders have special rights, the American citizen posses the right to support a justified cause for protecting their support of these rights not at the waist side of government games. The protection for our own should be taken care of first and foremost less of being forsaken. This country's movement of so called changes has certainly stimulated our economies growth with the fear of political obsession, that would fix it all. The only problem is, American people are faced with not buying into any stimulation that doesn't directly affect putting bread and butter on their table first instead of a foreign country.

MEDICAL COSTS: ON THE RISE

FALSE PROPHECIES AND A QUALITY OF A BETTER LIFE FOR THE STILL SICK AND SUFFERING FIRST RESPONDER, AS OIL SKY ROCKETS, SO DO OUR MEDICAL COSTS.

asthma attack 5 times. Little did I know and in kind to other Responders being faced with is the dilemma for being charged \$250 for emergency room fees after insurance and a separate charge of \$675 for the Ambulance ride. I had to pay out of pocket 5 times with money I didn't have. One thing for sure as a born citizen and better than illegal, I was told by the hospital collection recovery unit, that it is my responsibility to pay these charges or a judgement will be issued demanding collection. I maintained my composure at all times, until trying to work out minimal payments that I can live with, which was unheard of by collections. In fact, I was questioned if I receive Social Security, a pension, an LTD benefit or if there are other members in my household that are employed. What does this all mean? Exactly! As a First Responder the responsibility of others is inherited by the First Responder because we are the ones sick and we needed to use services that should be paid for by local, state and federal agencies. The disgust of this and observing illegal's in the emergency room being cared for with a cold, toothache, vomiting, black eye and other minor conditions, raised my anger of being pushed in the corner waiting for a technician to administer nebulized oxygen therapy on me. After the third emergency room run, I learned to become vocal straining my voice gasping for more air yelling out, "I AM POST 911 AND I NEED SPECIAL CARE"! Don't you know it worked, because the first medical doctor to come running was a Shrink. He began his life saving help for me while I'm in the middle of an asthma attack, by asking me a series of questions in order to properly help me as follows; "Are you depressed?" "Do you feel worthless?" "Do you feel sorry that you responded to the WTC?" "Do you feel sometimes that you want to hurt someone or you might want to hurt yourself?" I looked him square in the eyes and said are you a joke doctor, if you don't immediately hook me up to oxygen therapy, you will find out for sure the answers to all of your useless life saving questions with a fat lawsuit. With that said exactly in that manner trying to talk and breathe at the same time, 3 aids came out of nowhere and had me hooked up in less than 30 seconds while apologizing for the doctors anal-re-

tentive behavior. I have since become reluctant to ever go back to the hospital emergency room unless I knew I was dying. My experiences have become a common one with all First Responders, not only in hospitals and happens quite frequently with our private medical doctor visits where most of us have reported being left in the waiting room for more than 2 hours. All of these dilemmas helped to self educate the First Responder to seek out new doctors and during consultation being assured that this won't happen to us the First Responder who needs special care that many take for granted with reason behind this statement. Many First Responders cannot be cared for by just any medical doctor who has no idea of the toxin animal in the beast conditions we all suffer from. Many doctors have kindly and compassionately admitted to me that my multi medical conditions are beyond their expertise which they feared hurting me. Although I am a registered Responder with the Mount Sinai Medical Monitoring and treatment Program, the medical staff are more compassionate than most. But there are limitations to treatment and prescribing free medication that has been approved by the City of New York. So once again we are faced with choosing to find a private medical doctor to care for those unapproved conditions. Thus, creating the snowball effect for capping out our family prescription drug plan.

American Homeland Disasters always existed and shall never leave, becoming a part of life for the 9/11 WTC FRF, mission with cause to fight for the rights of all first responders on American Soil. The collapse of the Towers resulting from the criminal terrorist political attack via airline hijacking in fact, caused toxin dust to become lethally airborne to anyone's immune system. Most of these illnesses induced through the responder's immune system were not made a part of any settlement by the City of New York. There were many responders that worked one day, months to years and were not affected as yet, which we will note as having a higher immune at that time of their participation or a bystander. There are many responders and/or bystanders who were in the area one day, months or years and have multi medical conditions, which we note as having a compromised immune system during that time.

PRIMARY CARE AND SPECIALTY PHYSICIANS

The First Responders medical conditions have become an unnatural way of life for many of their families and friends. I can not hold any primary care doctor or specialty physicians in contempt for their uneducated knowledge or experience dealing with the animal in the beast multi toxin exposure, that causes an immune system to crash. Under the same breath I can hold those that ran away from responsibility and accountability, in contempt with the many still rising deaths of 9/11 WTC First Responders. Do some politicians really believe they have a chance to be re-elected not if I can help it. They would have had a better chance with their guilt mandating required doctor care across America!

America is losing her "Beautiful" as promised changing times show true colours camouflaging the RED, WHITE & BLUE PLEA.

RESPONDER VS THE AMERICAN DREAM

"I am so sick of being sick told and that some of my conditions which were non-existent prior to 9/11, are". "I am so sick of being sick and told that my medical condition may be related, but are not being recognized by the responsible Agencies for, "WE THE PEOPLE, THE STILL SICK AND SUFFERING WHO RESPONDED TO A DISASTER ON HOMELAND AMERICAN SOIL". "I am so sick of being sick and paying for attorney's to fight my fight that is a given entitlement in the Spirit Of America as a United States Citizen, which always was and should never change". "I am so sick of being sick, hearing and watching First Responders fall to the depths of death by way of past procrastination to deprive, and should be treated as a crime in itself". "I am so sick of being sick, and knowing that I too someday shall fall and in my heart I am the walking dead where I must fight hard to overcome". "I am so sick of being sick, and knowing that the unborn shall weaken with lesser courage and bravery because of these short comings that compromise The Loyal Order Of World Peace and the Preservation Of Our Freedom". I have more physical bad days than good days and I shall use my positive energy to take a position and stand fast with the "SPIRIT OF AMERICA. My passion is so contrary to riding the tails of political mercy by those who have failed this nation with American priority, over those that may be less fortunate in other nations, is the political obsession for political priority. Inasmuch, taking care of our own first is imperative to rebuild the strength and growth of our nation which has been forsaken too many times all counterproductive against the AMERICAN DREAM.

OD DAY

FAILURE: WHICH WAY TO TURN

THIS COUNTRY HAS MANY LAWS YET MORE SYSTEMS THAT ARE IN PLACE TO BALANCE THE MANY LAWS OR IS IT THE LAWS THAT BALANCE THE MANY SYSTEMS. IN ANY EVENT OR JUSTIFICATION TO THE SO CALLED FORMULAS, THEY ONLY WORK IF THE POWERS THAT BE, IN CHARGE ALLOW THEM TO WORK FOR THE INTENDED PURPOSES AND USE. TODAY WE ARE SEEING A WHOLE NEW GENERATION OF POLITICAL FAILURE BY ITS BUFFOONERY IN THE POLITICAL ARENAS MOSTLY BY THE POLITICAL BULLY, (PROTOCOL, PROCEDURE AND PERCEPTION).

THE AMERICAN HEROES ARE EVERYDAY PEOPLE!

The element of surprise in most poor foreign countries dealing with disasters or terrorist criminal acts of insanity, is their way of life because they allow it. In America, it is an element of surprise where this nation is not poor, yet so blind to protect the welfare of our unborn American Children. Stimulating changes for political gain outside this country has removed the fear of God, thus stimulating the fear of being an American. You can't take away what has been established from day one in this country and expect your empire not to crumble. Today's medical discrimination and failure toward First Responders is part of history. Our children's, children's unborn children's history education, will destroy their badge of courage and bravery that I had to employ as an American to save and protect our own, no longer to exist.!

For some, the way to turn in this country today, is to look at the bill of goods that was sold to us and decide is this what I paid for! from the price of oil to the size of the now fast food hamburger.

For some, the way to turn in this country today, is to wake up each morning and decide who will be my inspirational role model! from the media exploited super hero actors and actresses that are cheating on each other, infested with drug addiction not even knowing who the baby daddy is, To who is being sued by their child, exploited by the media is their entitlement, and not having to appropriately, hand to heart pledge to our flag in the United States, that holds many meanings for its Glory.

THE RIGHT WAY TO TURN IN THIS COUNTRY TODAY, IS TO WAKE UP EACH MORNING AND DECIDE THAT OUR FLAG FLY'S WITH ITS EAGLE ABOVE OUR NATION PROTECTING THE AMERICAN HERO OF EVERYDAY PEOPLE, FROM THE PEOPLE WHO REALLY DESERVE THE CREDIT FOR THE PROTECTION OF THOSE FLYING COLOURS, TO THE PLAYER HATERS WHO LACK THE COURAGE TO STAND BEHIND THE TRUE MEANING OF PRESERVING FREEDOM WITHOUT DESTRUCTIVE CHANGE.

WORLD MEMORIAL / THE PATRIOT FLAG

So I ask, how many of us know where or how to find these individuals? Well, ya need not look very hard, they are right in ya backyard. You can't care that I "KNOW", unless you know that I "CARE". For the past decade since September 11, 2001 there are thousands of men and women who represent the survival of the American Patriot Flag. The Patriot flag is traveling to all 50 States raising

the flag in the memory for the fallen on 9/11/01. With their dedicated service and tireless efforts, gives true meaning to the SPIRIT OF AMERICA! I ask our members and readers to visit them by thanking a well deserved Not-For-Profit organization,

www.worldmemorial.org,

Also check out their schedule for the raising of the Patriot Flag, something we as Americans should all be involved in.

The Patriot Flag helps to promote what World Memorial stands for, NEVER FORGET 9/11, 'Keeping The Memories Alive'. As the title World Memorial implies it is inclusive of 106 Countries that lost at least one of it's Citizens. The way to turn in this country today, is to wake up each morning knowing that our flag fly's because we didn't allow the change for it's destruction!

"THEY HAVE TAKEN FROM ME"

They have taken from me, the terrorist fight for my Democracy, It is their accountability that has forsaken, THE IN GOD WE TRUST.

So many have fallen and the inhuman cycle moves in on THE WE, God gave free will to save other souls excluding eating the dust.

They have taken from me, my family, my friends with hypocrisy, Destroying the learning to be free, pride for her glory was a must.

I am not the person glorified with strength nine years ago free, It's their act of contrition all meaningless with the still suffering us.

They have taken from me, the birthed twins standing tallest of trees, While pain we fear not, yielding our unborn for the mistakes of rust.

Great men who founded this country set flying colors for their plea, It was First Responders who casted success for the coming, now our lust.

They have taken from me, political sanity that once did live inside me, But they will never take the Pursuit of Happiness, NEVER FORGET!

in any lawsuit, yet many of us have the symptoms of brain fog.

NEXT ISSUE:

The 9/11 WTC First Responders Foundation Inc. ~ World Memorial, The Patriot Flag, join Forces to Protect the memories,

NEVER FORGET!

I, a surviving still sick First Responder, am not the hero many smile and thank me, for my participation in rescue and recovery. The only heroes are those that fell victim trapped within each

Of the World Trade Center Towers. I believe each frightened yet brave victim, possessed the Spirit of America knowing that our driving force to Rescue them, was their being the True Hero. I can not accept accolades as a hero for bravery that was suffered by the True Heroes who had no choice but to believe in the faith of this country. The True Heroes faced with life coming before

them under the eyes of God and no where to go. I had a choice with many places to go, yet by virtue of their trapped bravery and heroism, I chose to be there for them, as I would want them for my brave heroic pain to be saved and NEVER FORGET!
